Trump has chosen David Friedman, an extremist Zionist, as US ambassador to Israel.

Trump gave money to the Israelis in 2003 to help build an illegal settlement in Palestine.

How Israel won the US election.

Certain top Israelis, the supporters of Netanyahu, persuaded the majority of the Evangelicals in the USA to vote for Trump.

Most American Evangelicans believe that the Jews are God's chosen people, and that 'the Temple will rise again at the time of Armageddon'.

In 2006, a Pew survey found that the USA's evangelical Christians were

more favorable toward Israel than was the average American.

However, in a Pew survey, 42 % of American Jews expressed hostility to evangelicals and fundamentalists.

Why Don't Jews Like the Christians Who Like Them?.

In the USA, reform and secular Jews do not like the Evangelicals' beliefs.

Most American Jews are liberals, and support the Democratic Party and liberal causes generally.

However, the Jews who control the Deep State are happy to manipulate the Evangelicals and get them to support Trump.

It is Trump who will help Israel to create its Greater Israel.

And it is Trump who will help the Jewish billionaires to grow even richer.

The Jewish holy book called **the Talmud** tells us about traditional Jewish

attitudes to Christians.

"The image of Jesus that one gets from the Talmud is that of an illicit, sex-crazed black magician who uses trickery to lead Israel astray."

According to the Talmud, Jesus deserved to die and he was killed by the Jews.

According to the Talmud, Jesus was a sorcerer, an idolater and a heretic who led Israel to idolatry. His execution - stoning and then hanging - was carried out in strict accordance with rabbinic law.

The Trump family is mainly Jewish.

The Trump family has a 50-Year history of donating to Jewish and Israeli Causes.

Above, we see **Robert Trump** and his brother Donald Trump.

At university, Donald's brother Fred **joined Sigma Alpha Mu, a Jewish fraternity**, according to David Cay Johnston's 'The Making of Donald Trump.'

Several former fraternity brothers told The New York Times that they remembered **Fred claiming that his father, real-estate magnate Fred Trump Sr., was actually the Jewish son of German immigrants.**

Donald Trump's brother Fred, Jr. died of complications of alcoholism at age 42 in 1981.[32]

Cawley can be a Jewish name.

Most of Trump's closest allies are Jewish.

David Friedman is Donald Trump's adviser on Israel.

Friedman says that Trump would support Israeli annexation of parts of the West Bank and would likely back a complete annexation if Israel thought it necessary.

It is expected that if Israel annexes the West Bank, it will also annexe the Gaza Strip.

If Jews are to have a clear majority in an expanded Israel, a lot of Palestinians will have to be pushed out.

Friedman claims that "a lot of Arabs are leaving."

Breitbart's President and CEO Larry Solov has written that Breitbart's transformation into a media empire began in Israel in 2015.

In 2015, Breitbart News opened its bureau in Jerusalem.

Larry Solov's visit to Israel was financed by pro-Israeli hasbara (Israeli propaganda) groups.

Breitbart News was "founded by Jews, is largely staffed by Jews, and has an entire section dedicated to reporting on and defending the Jewish state of Israel," Breitbart's Jewish CEO Larry Solov announced.

Some background context on the Breitbart psyop discovered in the course of investigating YET ANOTHER overthetop sio-con front of rabid jew-baiting disinfo sites last winter.

Pretty much nuthin but controlled opposition psyops left on the net at

this point. Kinda like watching a frame by frame replay of the original Invasion of the Body Snatchers.

It is striking that in the very same hours that the Donald Trump election as 45th USA President was being confirmed by USA voting electors ... with more of the very few 'rogue electors' going against Hillary Clinton than against Trump

In those same hours, there were 3 major Islamic-related terrorist incidents, of the type frequently attributed to Mossad & associated security services

The shootings by the mysterious 'lone gunman' at the Zurich Islamic centre

The mass killings & maimings by a said Pakistani 2016 migrant, driving a lorry in a Berlin Christmas marketplace, imitating the Nice, France events earlier in 2016

The first assassination of a Russian ambassador in nearly 2 centuries, in Ankara, Turkey, with both the killing & the shooter shouting his Islamic agenda on globally seen video

In the Ankara shooting the gunman was strangely able to flee the scene ... no security present? ... but a bloody corpse quickly turned up on still image in the same clothes, the shooter described as from Erdogan's nemesis Islamic group, the followers of Fethullah Gulen ... Veterans Today almost instantly calling 'false flag' there

Didn't the Brussels terror event on 3/22 happen one day after Trump's speech at AIPAC?

Generally all terror events provided more leverage for Trump. (I don't mean the election was really a partisan contest, rather than theater, but within that context it factors into the Trump storyline.)

In July there was the 'truck attack' in Nice, France. Few hours later there was a happening in Turkey, the strange coup attempt.

Now there was this assassination (theatrical looking as well, judging the video) in Turkey and few hours later another 'truck attack' in Europe, Berlin.

Second time in 6 months there's a 'truck attack' in Europe and within a few hours a happening in Turkey. Sounds quite strange.

When the 14 US led officers were found in a basement control and command center direction terrorist efforts in Aleppo, there was a Turkish military man among them.

The big lie that Turkey opposes the US in Syria must be getting more and more difficult to sell.

Perhaps you have to se the ambassador shooting as a typical revenge for "Mossad, other foreign agents killed in Aleppo strike": So - thats why the Russian ambassador had to die?
